

What This Journey Builds — Beyond Technology

This program is thoughtfully designed to help children grow not only as **future technologists**, but as **confident, creative, ethical, and resilient individuals** in every area of life.

- Through AI learning, children gradually develop:
- 🌱 **Creative Thinking** — imagining, designing, and expressing ideas
- 🧠 **Logical Reasoning** — breaking problems into steps and solutions
- 🗣️ **Communication Confidence** — explaining ideas clearly and proudly
- 🤝 **Collaboration Skills** — working respectfully with others
- 🌍 **Ethical Awareness** — using technology with kindness and responsibility
- 🚀 **Future Readiness** — skills that support academics, careers, and life decisions

AI is not the goal
Human growth, character, and confidence are the goal.

APP (connecting to
higher self)

My Vision:-

is to Make People Aware of their
body and Soul according to their
on going routine through this APP.
with Short motivational video as well.

Who or what it helps:-

This APP will help everyone No
matter on what level you are at.

Example: 1. make them habitual
of laying down exercise,
then sitting - standing and
goes on -"

1- Let them start customised Plan
from where they are

2- Then slowly make them aware
and realise them what is wrong
in their routine and stopping
them being healthy.

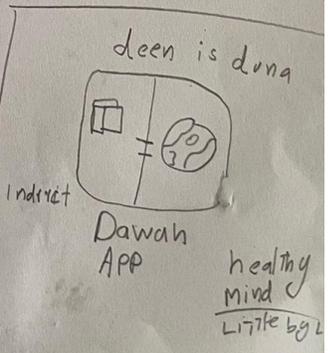

3- make them accountable
for their health by connecting
them to their religious
techniques and to unveil

the power of
Conscious mind.
higher self - infinity
if anyone is clear
and connected to
higher self than its
so easy to preach
them towards Islam

It will tell them
the original way of being
healthy -

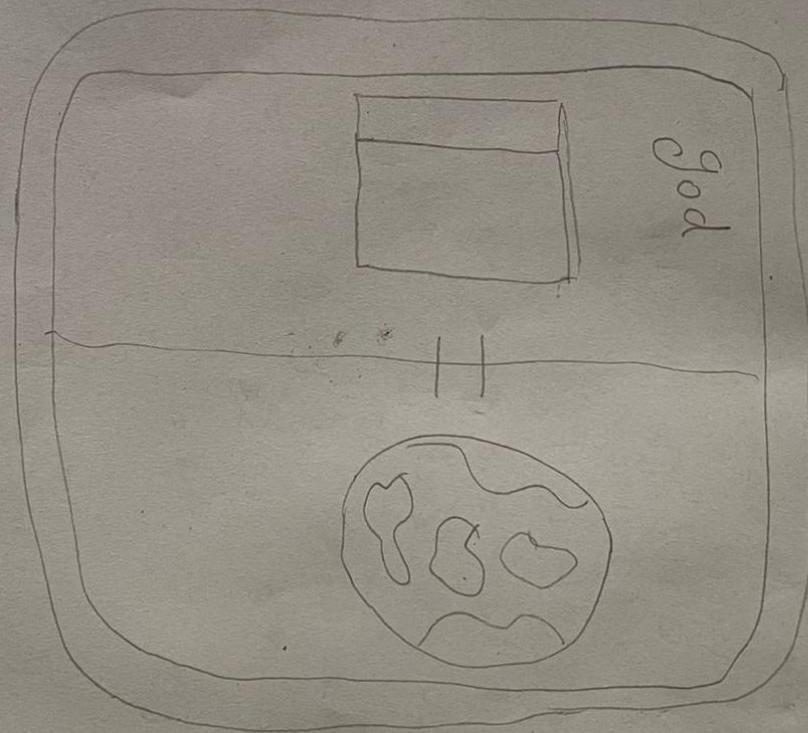

Less = more
connect with ancient
times, no gym
required - many
techniques

→ Religion bring accountability
→ Accountability bring balance
and focus
→ They keep you on right
successful path.

HOW A BLIND PERSON CAN DO ANYTHING!

Through BURAK a blind person can do everything. Just wear the headband and see the magic.

Burak is a record breaker! This is a head band with a chip inside "The magic is in this chip" Now with Artificial intelligence a chip can instruct and control a blind person's brain, which will help him sensor things, be able to know about surrounding walk without stick, cook alone and do whatever he want with over 2000+ functions. He can also help Muslims do wudu and pray namaz without anybody's help. This band also has sensors and can also speak when you say the magic code with the Burak headband you can be the earliest one in a function, office, meeting or school. Just one setting which will make your life easy. This can also speak azkar to help you to be in gods protection.
